Supports
hormonal balance and
stabilises mood

CHASTEBERRY & SILICON DIOXIDE

APPLICATION

To be used for supporting hormonal balance and stabilising the mood of bitches/females and males in dogs and cats.

- Suitable for both females and males
- Finely ground for optimal absorption
- For pets experiencing hormonal imbalances

Eclipse Biofarmab Hormonbalans consists of ground chasteberry and silicon dioxide of the highest quality.

Bitches/females, similar to males, frequently experience stressful hormonal imbalances, manifesting as mood swings, aggressiveness, irritability, and diminished performance.

Monk's Pepper has been used for centuries to support hormonal balance. Administering monk's pepper assists in naturally balancing your dog's or cat's hormone levels, thereby facilitating relaxation and improved focus on tasks.

Eclipse Biofarmab's Hormonbalans is recommended for daily use with the option to increase the dosage during key periods, such as the bitches/females estrous cycle. If needed, Hormonbalans can be administered year-round. Effective even for males who find the estrus period stressful.

Pure chasteberry can sometimes be too potent for some dogs and cats' stomachs, which is why we have added silicon dioxide. Silicon dioxide is very gentle on the stomach as it absorbs bacteria and other substances in the stomach and intestinal system, thereby protecting the mucous membranes. Silicon dioxide has many health-promoting benefits and can contribute to a stronger, more lustrous coat and healthier skin. Silicon dioxide also plays a crucial role in maintaining the strength and elasticity of connective tissue, including ligaments and cartilage.

Also, due to its composition of natural ingredients, variations in fragrance and appearance may occur.

FEEDING DIRECTIONS

>10 kg: 1/4 scoop/day

10-30 kg: 1/2 scoop/day

<30 kg: 1 scoop/day

The dosage can be tailored to individual needs and does not strictly depend on body weight. Mix well in feed.

Not advisable for use in pregnant pets.

1 scoop = 6 g

SIZES AVAILABLE

0544 70 g = 23 days supply at 3 g/day

603501 300 g = 100 days supply at 3 g/day

COMPOSITION

Monk's Pepper (Vitex Agnus-Castus), silicon dioxide.

ADDITIVES

The product contains no additives.

ANALYTICAL CONSTITUENTS

Crude Protein 6.4%, Crude Ash 4.2%, Crude Fat and Crude Oils 5%, Crude Fibre 45.5%.

SHELF LIFE

24 months.
