and skin irritations

WOUND CARE SPRAY

APPLICATION

To be used for wound care, reducing swelling, and soothing skin irritations. Its gentle formula is easily applied, even from a distance, thanks to the convenient spray function.

- Wound cleaning spray
- Contains 99% ACTIValoe®
- Relieves insect bites, swelling, and minor wounds

Eclipse Biofarmab Aloe Vera Spray is a versatile soothing solution suitable for all kinds of wounds.

It is equally effective in relieving insect bites, reducing swelling, and treating minor wounds.

We exclusively use ACTIValoe®, the world's most rigorously tested Aloe Vera product, guaranteeing a minimum of 10% polysaccharides.

Aloe Vera Gel provides optimal conditions for wound healing, boasting elevated lignin levels that effectively penetrate the skin, a crucial element in the healing process. Its gentle, hydrating properties makes it an excellent choice for treating various skin irritations and injuries.

INSTRUCTIONS FOR USE

Clean the affected area and then spray directly on the wound.

For larger wounds, cleanse with Aloe Vera Spray, followed by the application of Eclipse Biofarmab Aloe Vera Gel. Can be repeated several times a day until the wound is healed.

For external use only.

If you have any doubts about wound treatment, consult a veterinarian.

COMPOSITION

Aloe Vera (ACTIValoe® is a licensed trademark owned by Aloecorp Inc.), Verstatil, Water.
