

# JOINTBUILDER JOINTBUILDER

PET

Performance

Joints

Age

Feed supplement  
for hard-working and  
older dogs & cats

## COMPLETE SUPPLEMENT

### APPLICATION

To be used for maintaining the well-being and mobility of joints.

- Supports the development of connective tissue
- Aids in accelerating muscle recovery
- Promotes a well-functioning locomotor apparatus

Eclipse Biofarmab Jointbuilder is enriched with multiple essential nutrients design to support a robust musculoskeletal system in dogs and cats. It is ideal for active, senior, and those undergoing intense exertion.

Jointbuilder contains, among other things:

**Glucosamine HCl:** A naturally occurring substance that plays a crucial role in the development of tendons, joints, and cartilage.

**Inulin:** A prebiotic metabolic dietary fibre that enhances intestinal health and optimises nutrient absorption in the intestine.

**Collagen:** A fundamental component of supporting tissues such as ligaments, tendons, bones, and teeth. Research demonstrates that hydrolysed collagen is absorbed by the intestine and contributes to the regeneration of tissues, including tendons and cartilage.

**Hyaluronic acid (HA):** Added to replenish the viscous, protective consistency of synovial fluid. The HA used in this product is of superior quality, featuring a large molecular size of 1,300,000 Da, which enhances its effectiveness.

**Chondroitin sulfate:** A naturally occurring molecule in articular cartilage, providing shock absorption. Supplemental chondroitin sulfate in the diet leads to an increased supply of building blocks, thereby stimulating cartilage production.

**MSM:** An organic form of sulfur crucial for cell construction, enhancing cell wall permeability for more effective waste elimination and nutrient uptake.

Incorporating **manganese** enhances the process of cartilage regeneration. Jointbuilder also contains **Methionine**, an easily absorbable source of sulfur that is also necessary in cartilage building.

### FEEDING DIRECTIONS

1 scoop daily per 8 kg body weight.

Mix well in feed.

1 scoop = 1 g

### SIZES AVAILABLE

0542 150 g = 150 days supply at 1 g/day

### COMPOSITION

Glucosamine HCl, MSM, Inulin, Collagen, Chondroitin Sulfate, Hyaluronic Acid.

### ADDITIVES

	1000 g	1 g
Vitamins:		
E302 3a300 Vitamin C	16.5 g	33,06 mg
Amino acids:		
3.1.1 3c301 Methionine	67 g	133,3 mg
Trace elements:		
E5 Manganese (Manganese Sulfate)	2.5 g	5 mg

### ANALYTICAL CONSTITUENTS

Crude Protein 21.4%, Crude Ash 1.5%, Crude Fat and Crude Oils 0.3%, Crude Fibre <0.5%, Sodium 0%.

### SHELF LIFE

24 months.
